# EVIDENCE BASED MEDICINE

- La mejor evidencia científica actual
- Experiencia del clínico
- Los valores y preferencias de los pacientes

Sharon McCutcheon  
@sharonmccutcheon

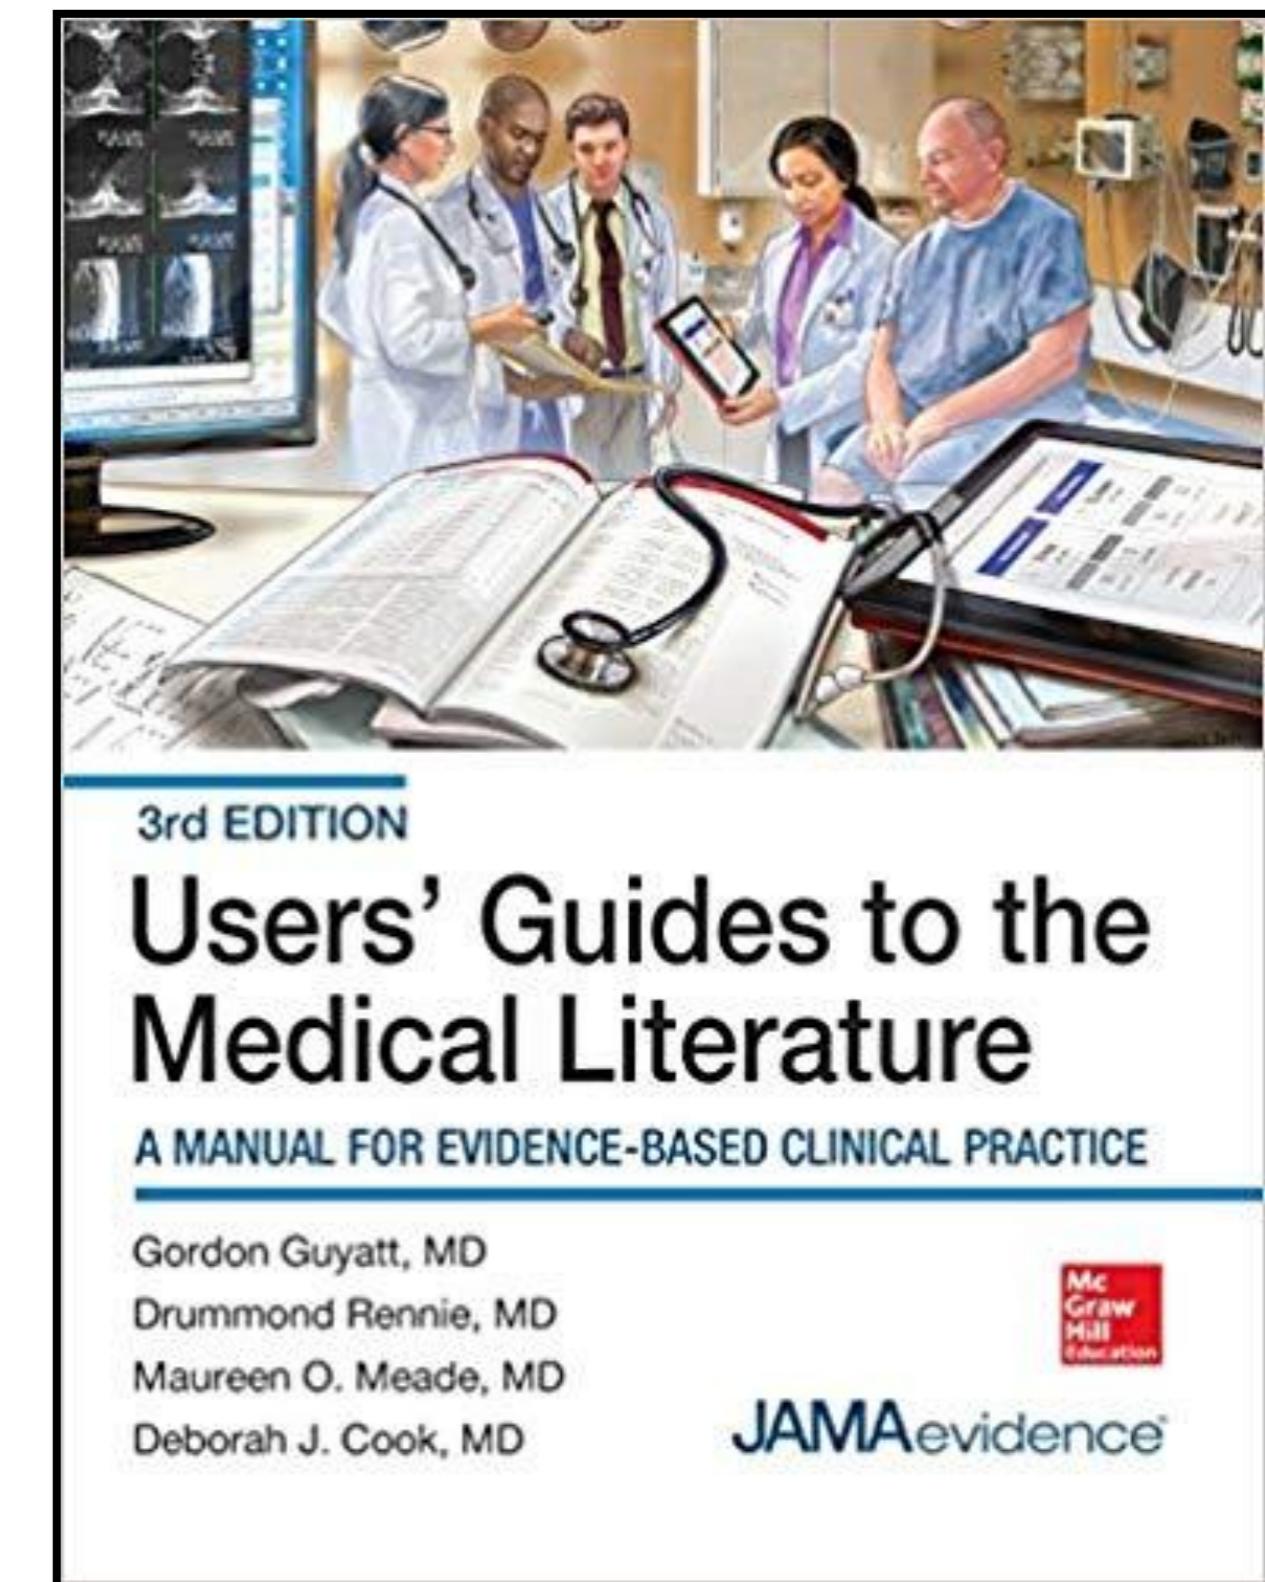

## Proceso de EBM:

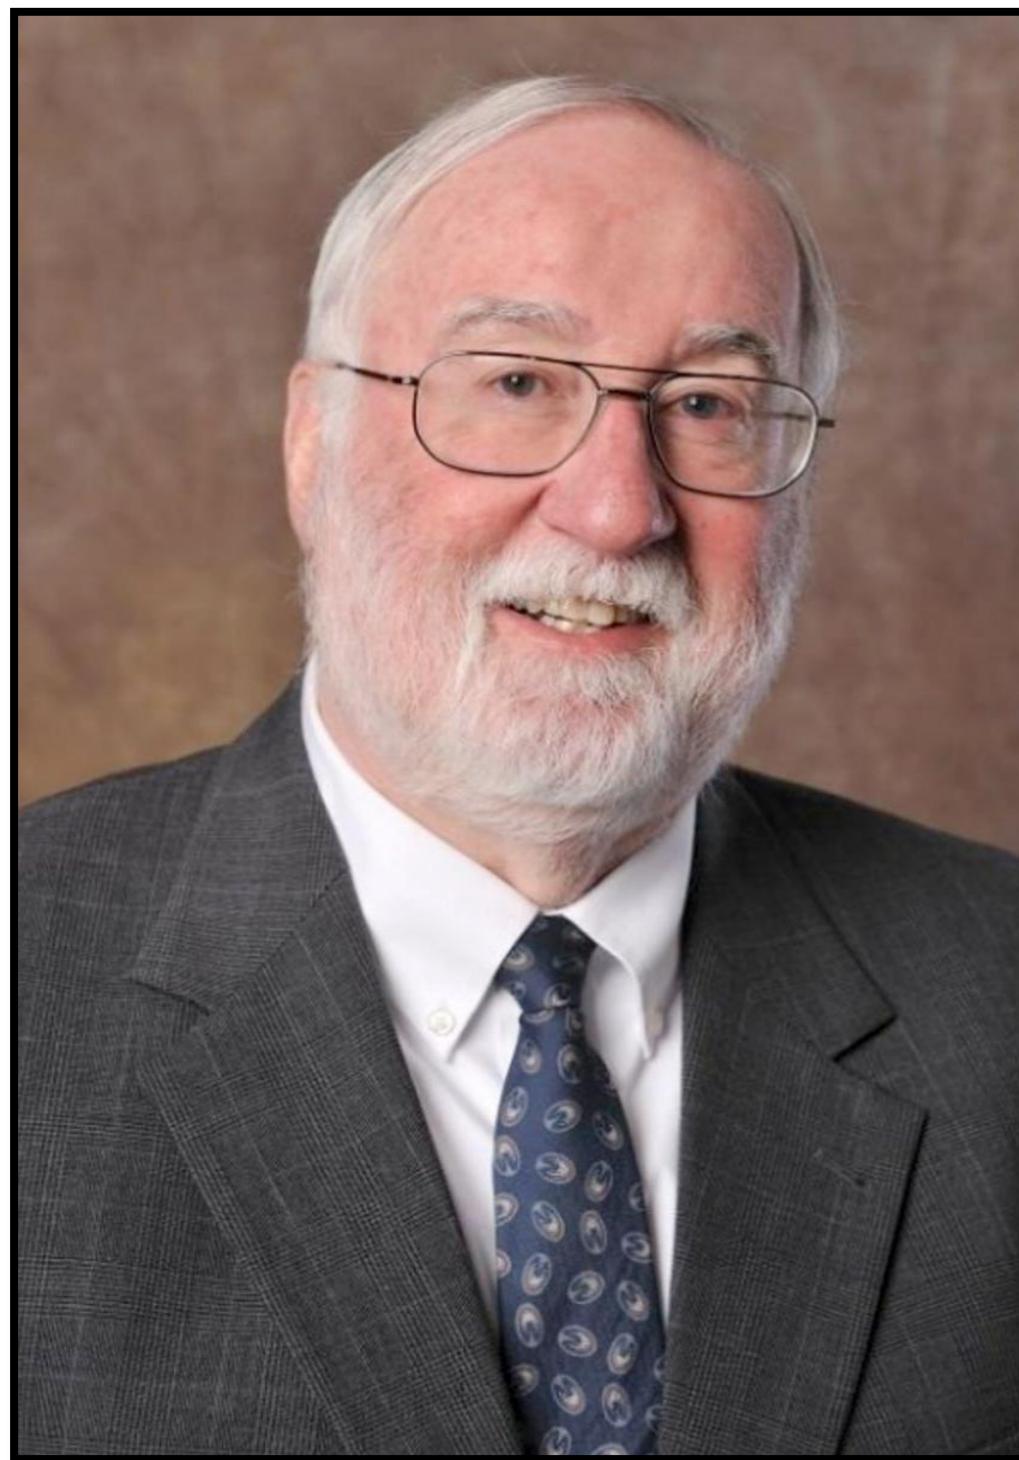

- Las decisiones que toman los clínicos día a día:
  - Principal fuente de preguntas que busquen soluciones basadas en la evidencia
    - Traducir la incógnita clínica a una pregunta clínica estructurada (PICO)
    - Buscar la mejor evidencia disponible para responder la pregunta (Base Datos)
    - Realizar evaluación critica de la evidencia obtenida (CASP)
    - Aplicar la evidencia encontrada
    - Reflexionar sobre el resultado obtenido

# Inicios de la practica basada en la evidencia:

- Primeros artículos sobre evaluación critica de evidencia hasta 1981
- Hasta 10 años después se acuña termino “Medicina Basada en la Evidencia”
- Entre 1993 y el 2000 surgen una serie de artículos enfocados a enseñar como evaluar la literatura

Brignardello-Petersen, R., Carrasco-Labra, A., Glick, M., Guyatt, G. H., & Azarpazhooh, A. (2014). A practical approach to evidence-based dentistry: Understanding and applying the principles of EBD. *Journal of the American Dental Association*, 145(11), 1105–1107.  
<http://doi.org/10.14219/jada.2014.102>

David Lawrence  
Sackett, MD

Gordon Henry  
Guyatt, MD

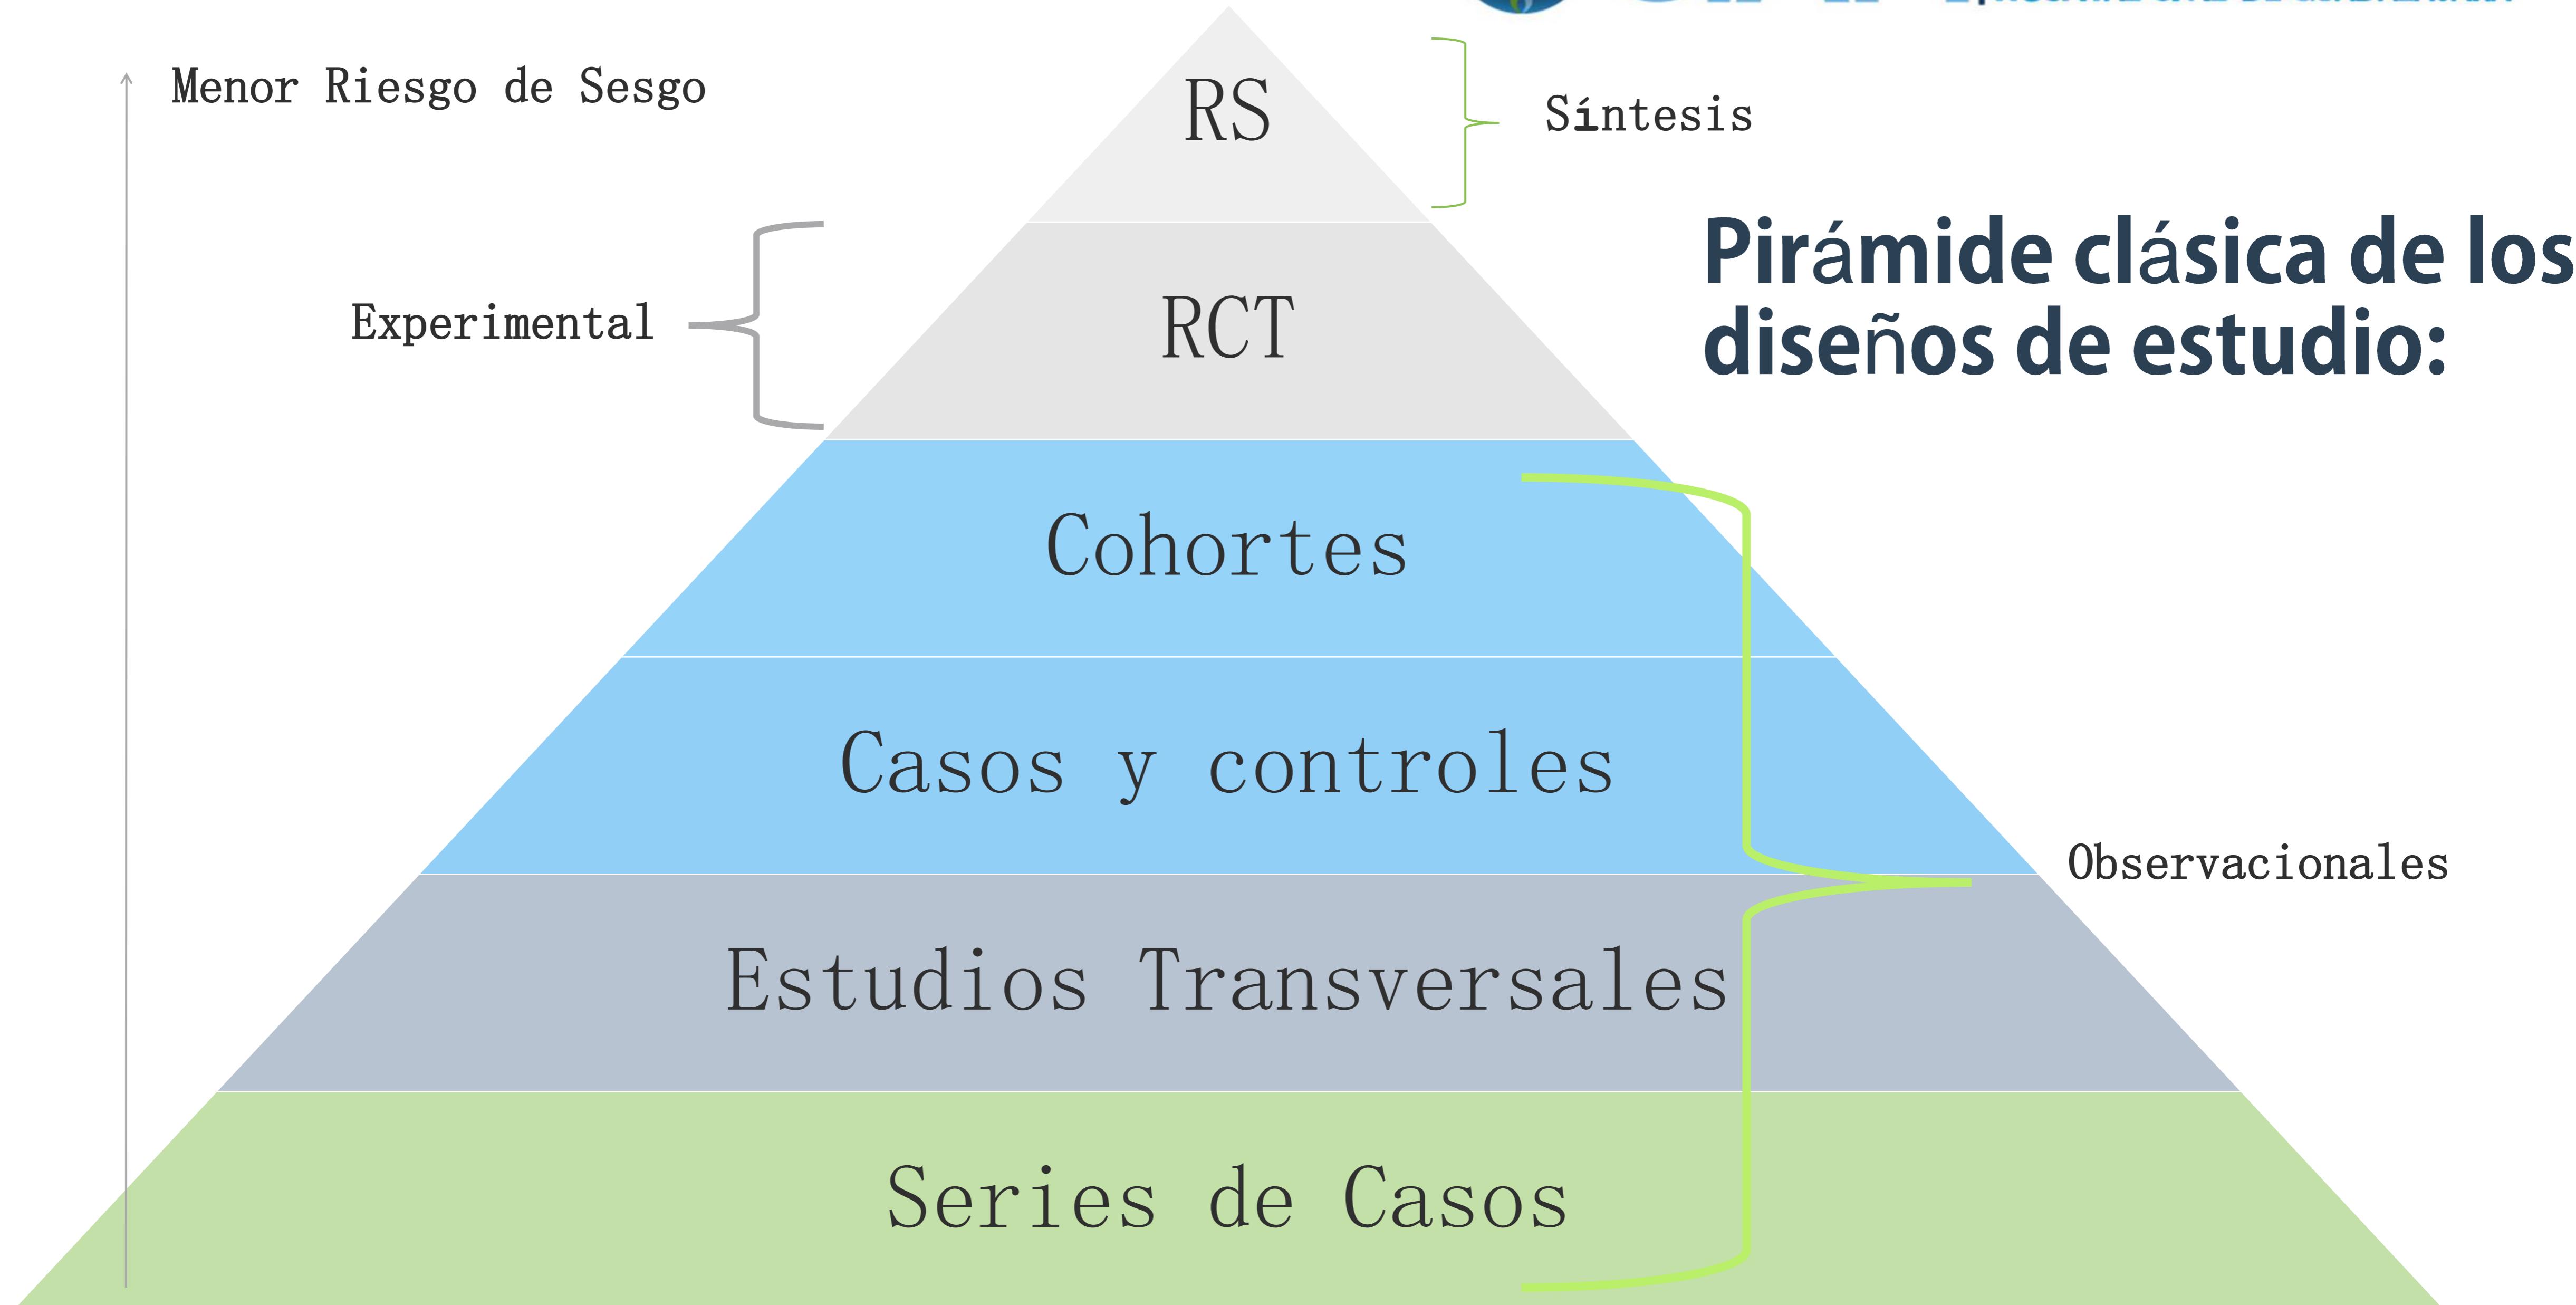

Iain Chalmers, MD

Paul Glasziou, MD

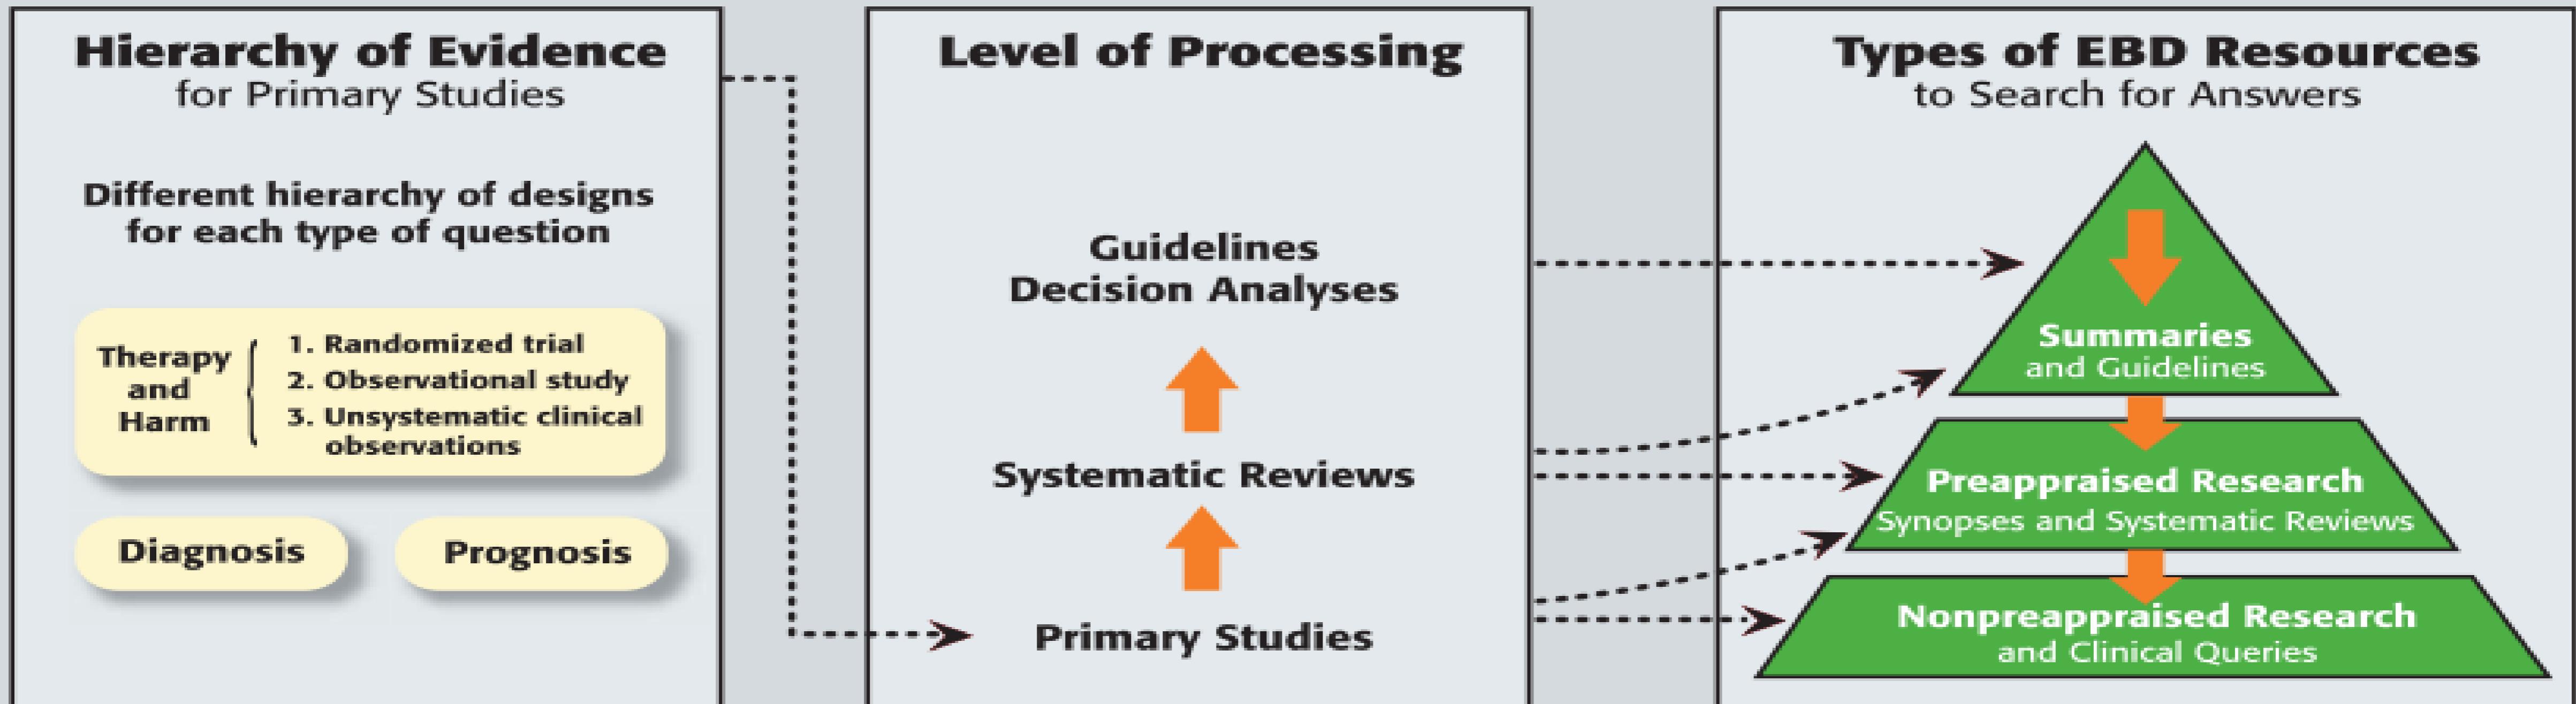

# Por qué es importante el saber cómo buscar la mejor evidencia actual:

- Debido al creciente número de publicaciones las cuales evalúan la efectividad de los tratamientos
  - Cada vez hay más clínicos familiarizados con las bases de datos
  - Más agrupaciones de pacientes que consultan las bases de datos

# Tipos de evidencia:

Brignardello-Petersen, R., Carrasco-Labra, A., Booth, H. A., Glick, M., Guyatt, G. H., Azarpazhooh, A., & Agoritsas, T. (2014). A practical approach to evidence-based dentistry: How to search for evidence to inform clinical decisions. *Journal of the American Dental Association*, 145(12), 1262–1267. <http://doi.org/10.14219/jada.2014.113>

We have identified **2465 systematic reviews** addressing questions about therapeutic or preventive interventions, the most recent published in 2020

### About this L-OVE

This L-OVE topic brings together all the systematic reviews relevant to **Colorectal cancer**. It organizes the evidence in PICO-question format and keeps it up to date in a simple, friendly format.

L-OVE saves you the time you would spend searching and screening, provides the most comprehensive evidence base for a question, and makes living evidence a reality.

### How to use L-OVE

Just select a population or an intervention from the menu on the left and you will get all of the systematic reviews.

Login or [Create an Account](#) so you can add a question to your list of favorites (clicking on the heart-shaped
